

# Capella Open Network Green and Black Belt Programmes 2017

## Information

Capella has been delivering Six sigma training, to a large number of clients, for 11 years. Two programmes are run annually for an open group of delegates from mixed industries throughout the country and Europe.

## Requirements

- Train a mixed group of delegates to Yellow, Green Belt and Black Belt level
- Use Six Sigma techniques and case studies to support underpinning knowledge
- Understand business and individual needs and support the successful completion of improvement projects across their businesses

“ I found Capella to be very supportive in that there was always regular contact. Queries regarding any aspect of the topics covered could be quickly answered Response times to project issues were always very quick. Knowledgeable tutor who was able to give clear explanations of Six Sigma tools and techniques. ”

## Capella Input

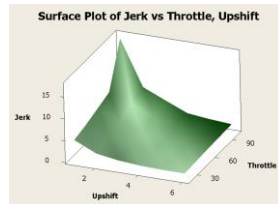

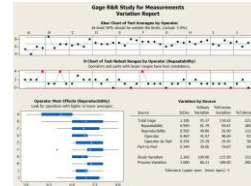

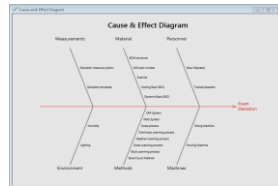

Delivered training in the Six Sigma tool set

Provided an engaging and interactive training experience using simulation techniques and specialist statistical software

Provided project support and coaching to ensure the successful transfer of new skills into the workplace and the delivery of business benefits

On hand support and guidance in the use of Minitab software

Provided on-site and remote support for the duration of the programme

## Results

Successful completion of the knowledge element of the programme for all delegates

Completion of projects which delivered benefits in the region of £2.6m annual savings for the businesses with an extra saving of £4m pending project completion

“ This course has shown me that every problem has a solution ”

“ The Consolidation exercise enabled all of the tools to click into place and all that I have learnt became clear ”

“ There was always a quick and helpful response to any questions that I had. ”
